

# Integrated Power

A number of our collections feature integrated power. From table tops within the City collection, to arm rest and headrests within the Manhattan collection, and most recently, within the upholstery of our Brompton, Manhattan, Ribb, Verona and Valencia seating collections.

Combining an elegant and luxurious product, with the practicalities of modern life. The options include: three-pin sockets, USB sockets and Aircharge.

CMD Black

CMD White

The units showcased are the CMD Ltd, Porthole 4 power modules, 90FC01BGST. Which include one 13A UK power socket and twin 4A USB ports, available in black, white or grey.

There is an uplift cost of adding integrated power to our products, please enquire for this figure. This includes 3m of cable to a 13A UK plug. If you wish to add an HDMI port, please enquire as pricing is £POA.

Valencia

# Integrated Power

AirCharge

The Manhattan collection also offers the option of AirCharge points, for an uplift cost, add AC to the product code.

Aircharge is a wireless charging solution, that can be used for smartphones and portable tech gadgets.
