

Ribb Specification

Designed by Katerina Zachariades

The Ribb collection of sofas and chairs is based on a square exterior contrasting with a soft “ribbed” interior and available in several lengths and back heights. Whether long and low or boxy and compact, clean horizontal lines combine with plump upholstery to create a relaxed and

comfortable seating collection. The distinctive style of the high back creates a booth seat that is intimate and imposing, with opportunity to specify an accent fabric on the seat or individual ribs for a bold graphic effect.

[Shown as right arm, can be left arm.]
